Dear Year 7 Parent / Carer

Re. Year 7 Homework

We have been working to get all the new Year 7 students connected to the school's wifi system and Google applications this week. While we have got most of them sorted out, unfortunately there are still some who are not connected.

As students access their homework via Google Classroom we have decided to postpone the setting of homework for a week while we ensure that all students are connected.

I will send a further update next week including details of the homework timetable.

Yours faithfully,

Dr Newbold
Deputy Head
